TimberTech® by JamesHardie™

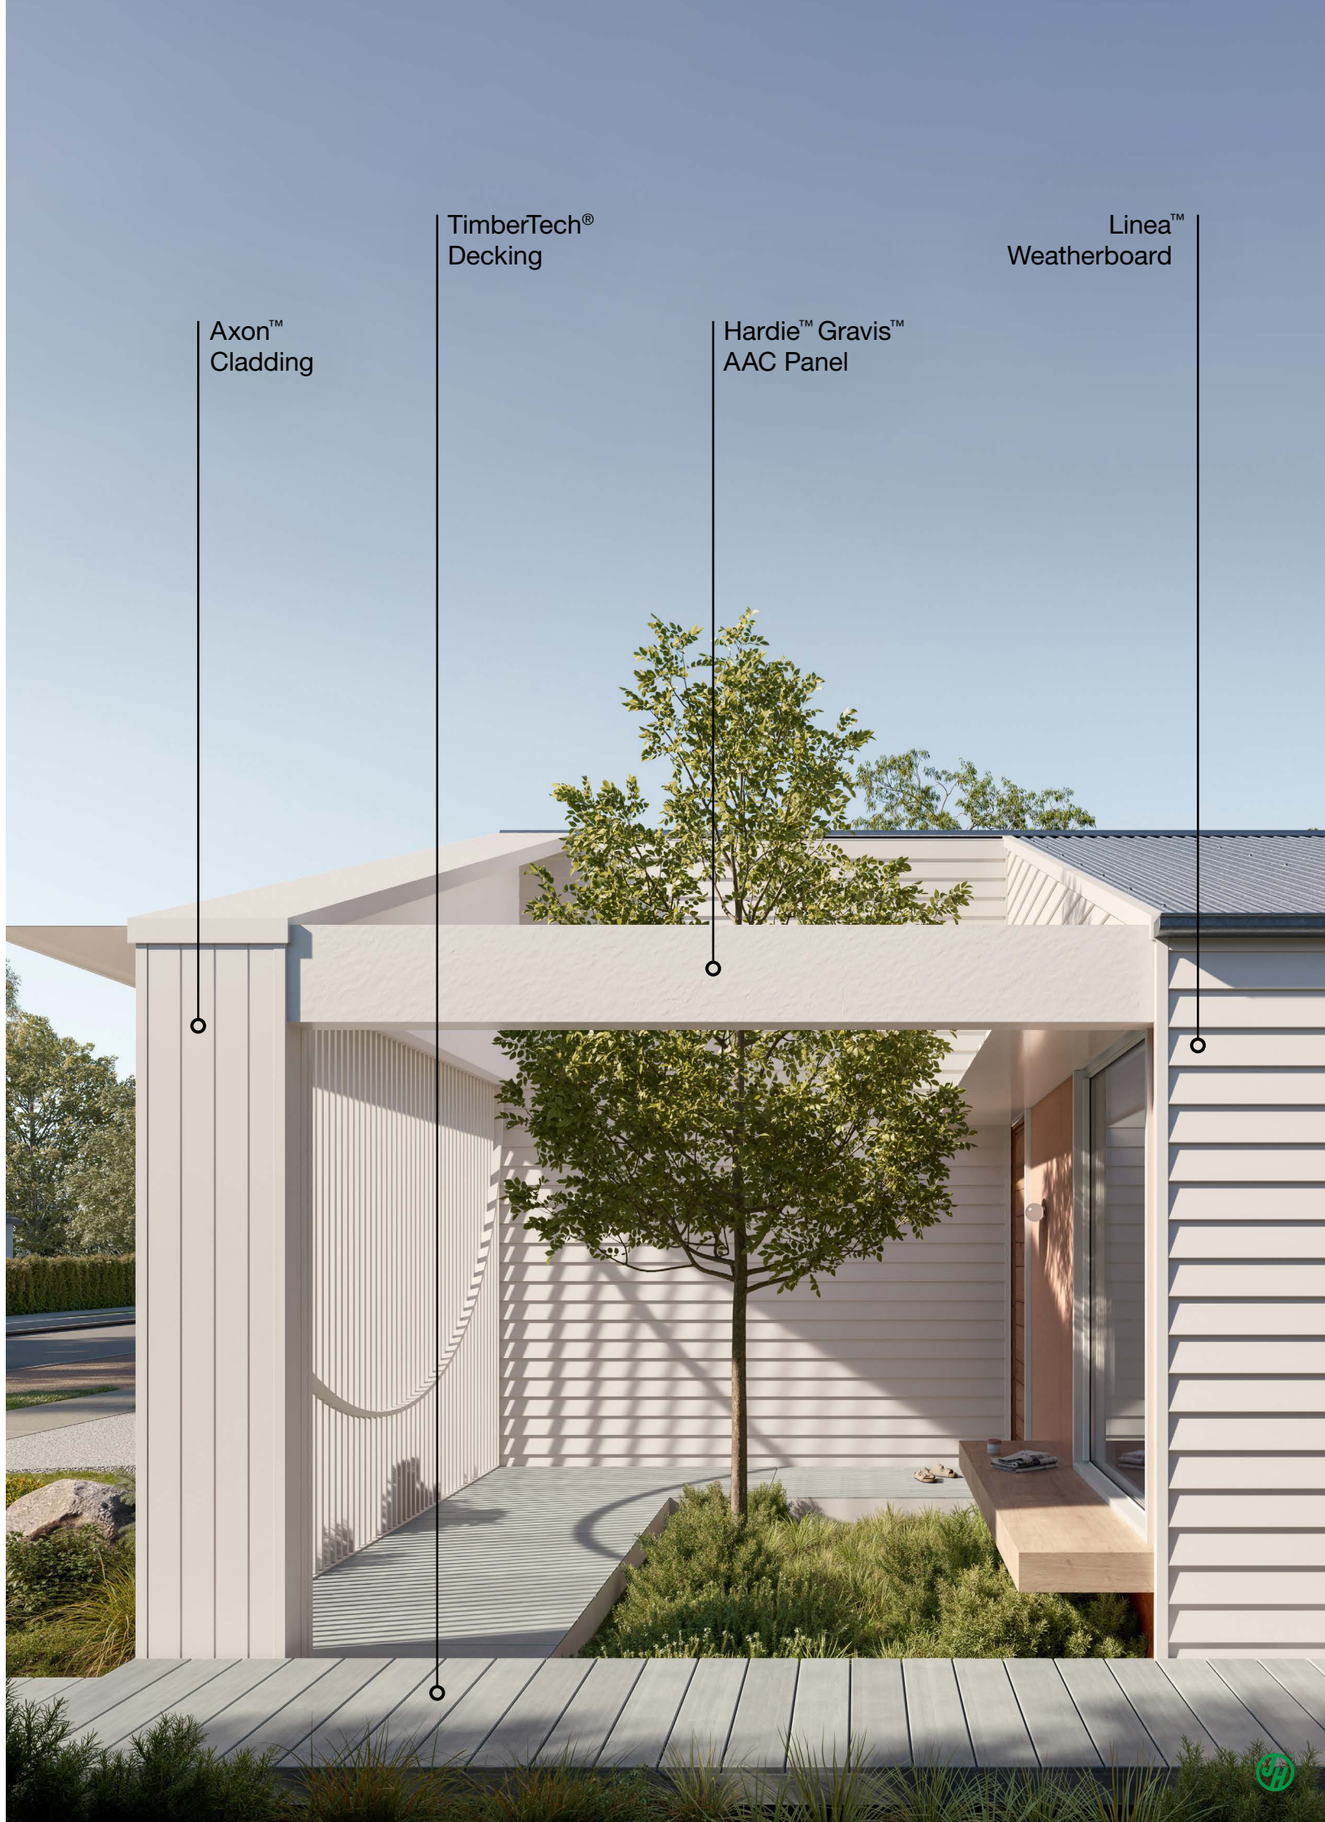

TimberTech® Decking

TimberTech® decking is a low maintenance, engineered decking solution that delivers a beautiful outdoor space with long-lasting performance.

It's Possible™ | jameshardie.com.au/timbertech

A great outdoor space should look beautiful, be easy to maintain and stand up to everyday life. TimberTech® decking by James Hardie brings this together in one simple solution.
With realistic timber looks and durability suited to Australian conditions, TimberTech® decking makes it easier to design outdoor spaces for effortless living.

What is TimberTech® Decking?

TimberTech® decking is a low maintenance, engineered decking solution that delivers a beautiful outdoor space with long-lasting performance.

Backed by a 30-year residential application warranty or 15-year commercial application warranty and as part of James Hardie's portfolio, it extends the same trusted quality from the home exterior to outdoor spaces.

Features & Benefits

Realistic Timber Look

Crafted with proprietary colour-blending technology and embossing techniques, all colours are designed to realistically replicate the natural tones and textures of quality timber.

Low Maintenance

Forget sanding, staining, or sealing your deck ever again. An occasional scrub and rinse are all that's needed.

Exceptional Durability

TimberTech® decking is one of the most durable decking products available in Australia. Our advanced capping technology resists UV damage from the harsh Australian sun, moisture damage, cracking, peeling and splintering. It also resists fading* and stains**.

Resistant to Moisture Damage

Made with recycled and high-performance polymers, TimberTech® decking is resistant to moisture damage that can lead to rot, mould, and mildew.

Fire Resistant

Engineered to meet requirements for up to BAL29 areas (Bushfire Attack Level).

Design Versatility

Heat-bending capabilities enable custom designs that let you bring curved, custom designs to life for a unique look.

Cools Quickly

TimberTech® decking is designed to release heat faster when no longer in direct sunlight, helping your deck return to a comfortable temperature sooner.

30-Year Residential Warranty

30-year product warranty for residential applications provides peace of mind in a long lasting, low maintenance solution.

15-Year Commercial Warranty

15-year product warranty for commercial applications provides peace of mind in a long lasting, low maintenance solution.

CodeMark Australia

* While TimberTech® decking resists fading, depending on environmental conditions TimberTech® decking colours may change, or appear to change, over time as part of the natural weathering process to which outdoor materials are subjected. James Hardie's warranties with respect to fading are set out in the TimberTech® decking product warranty.

** When installed and maintained strictly in accordance with James Hardie's technical literature current at the time of purchase.

Vintage Collection™

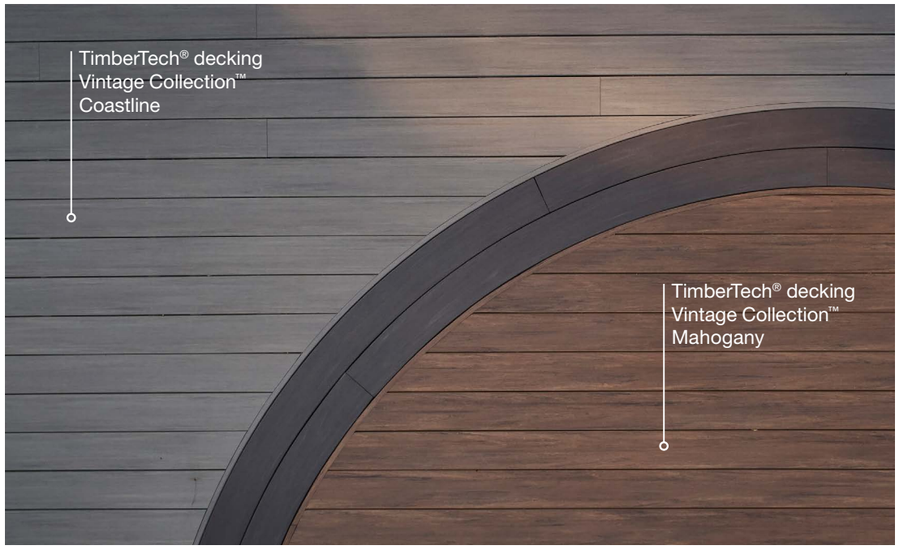

The Vintage Collection™ brings rich, timber-inspired design to outdoor living. Multi-tonal colour variation and refined grain detail create depth, variation and character in every board, capturing the look of premium hardwoods.

The range features a curated palette including Coastline, Weathered Teak, English Walnut and Mahogany, bringing warmth and depth to outdoor spaces.

The Vintage Collection™ is designed to retain its colour and finish over time, suited to Australian conditions. It resists splintering, cracking, peeling, rotting and moisture damage helping maintain a consistent, quality finish. Engineered for suitable traction, even when wet, the Vintage Collection™ boards achieve a P5 slip rating, providing confidence underfoot, especially around pools.

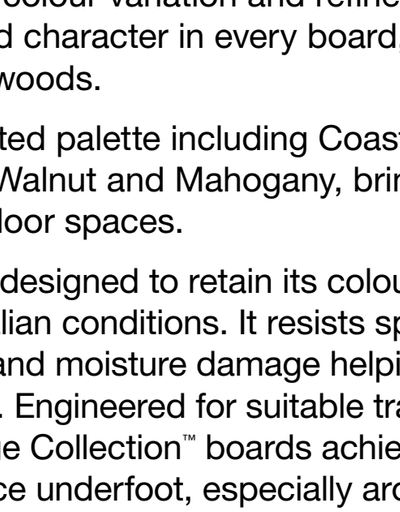

With no sanding, sealing or oiling required, it keeps its look with simple upkeep, needing only an occasional clean to stay looking its best.

Available in standard-width boards in both square and grooved profiles, the Vintage Collection™ also offers design versatility, including heat-bending capabilities that enable curves for a truly unique look.

Vintage Collection™

Mahogany

A rich, deep brown tone inspired by classic hardwoods. Mahogany adds warmth and contrast to outdoor spaces, with layered colour variation that brings depth and definition. It works well with lighter exteriors and contemporary homes where contrast is key.

Weathered Teak

A soft, sun-washed timber tone with subtle variation. Weathered Teak brings a lighter, natural look that pairs easily with neutral palettes and softer exterior finishes. It suits calm, contemporary home styles and relaxed outdoor settings.

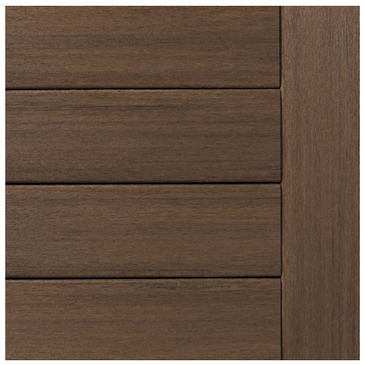

Coastline

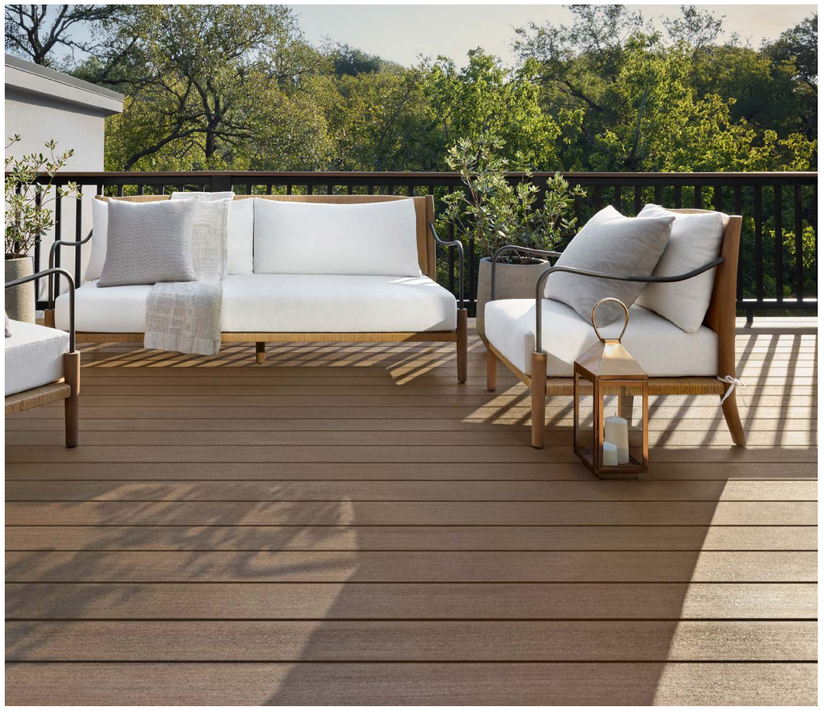

A light, cool grey inspired by driftwood. Coastline complements light façades and outdoor spaces, with subtle tonal variation creating a relaxed, airy outdoor feel. It is well suited to Hamptons and Modern Coastal homes.

English Walnut

A deep, earthy brown with layered tones. English Walnut offers a versatile option across a range of home styles, working equally well with both light and darker exteriors while adding depth and richness to outdoor spaces.

Product Specifications

Square edge Boards:

Designed for face fixing with Cortex™ screws and colour-matched plugs, helping conceal the fixing point while supporting a clean exposed edge, making them ideal for detailed areas.

TimberTech® decking Vintage Collection™ Square 6000

Name	Code	Length (mm)	Width (mm)	Thickness (mm)	Effective cover per unit (m²)	Weight per unit (kg)
Vintage Collection™ Coastline Square	920029	6096	140	25	0.852	13.81

Vintage Collection™ Mahogany Grooved	920062	4877	140	25	0.681	10.77

Installation Options

Before you start installing, read the TimberTech® decking Installation Guide on the James Hardie website, or scan the QR code shown below. It covers all the required components, tools and accessories, design guidance, safe working processes and warranty information.

Square-edge Board

Square-edge boards utilise the unique Cortex™ plug and screw system, to help control natural board movement with no pre-drilling required for efficient top-down fixing. Square-edge boards are also ideal for edge boards, breaker boards, stair treads and other detailed areas where there are exposed edges.

Cortex™ plug and screw system

Grooved Board

Grooved boards are designed for use with CONCEALoc™ Hidden Fastener Clips & Screws, supporting efficient installation and consistent spacing, with fewer visible fixings. This helps create a clean, fastener-free deck surface.
